 - Attach Source for value: (County Assessment, licensed appraisal, recent sale, etc)

I hereby attest that the description included in the permit application for the work on the existing building that is located at the property identified above is all of the work that will be done, including all improvements, rehabilitation, remodeling, repairs, additions, and any other form of improvement.

I attest that the cost estimate above considers the list of included/excluded costs on the back of this form and includes fair share market values, including labor costs, for any work not to be performed by a contractor. I further attest that I requested the above-identified contractor (if applicable) to prepare a cost estimate for all of the work, including the contractor's overhead and profit.

I acknowledge that if during the course of construction I decide to add more work or to modify the work described, Larimer County will re-evaluate its comparison of the total cost of work to the market value of the building to determine if the total cost of work will equal or exceed 50 percent of the market value of the structure. Such re-evaluation may require revision of the permit and may subject the property to additional requirements.

I also understand that I am subject to enforcement action if inspection of the property reveals that I have made or authorized repairs or improvements that were not included in the description of work and the cost estimate for that work that were the basis for issuance of a permit.
